Map 1 has areas that include beach area for more residents, so people can address issues with our coast as part of their area. The boundaries of Map 1 are simpler to understand, unlike Map 2 which has convoluted boundaries with portions extending into areas that make it difficult for residents to know what their areas encompass. Map 2 includes beach area for more residents but cutting a piece southward into beach areas is a convoluted boundary. Maps 2 and 3 exclude residents from having beaches as part of their areas. Beaches are important to all residents.
