Dear Redistrict committee,

There is no reason to redistrict and take the voting rights again out of the hands of the people. I do not share the tyranny immorality of some of the supervisors elected by the people who want to be ruled over.

Please let the districts remain and reconsider this option just before an election so we may revote on our community supervisor. I stand for life and anything that promotes life. Tyranny just causes death and destruction. Those who choose that option on this earth can choose the leader who wants to destroy them.
