eComment :

We share a unincorporated country lifestyle of equestrian properties,
our children share the same high schools and community organizations.

We continue to deserve an united voice of representation. Throughout the history of San Diego County we have always had an unincorporated East County district.

If you ask anyone or do any type of research on San Diego, you will find there has always been a North County, an East County, a South bay and the city. Please don't destroy our East County voice by removing our East County district and representation
