Dear Committee,

Thank you for the opportunity to provide input on the redistricting project.

I have resided in Fallbrook since 1960 - 61 years. I am now retired from my career as a newspaper editor in North County.

As an interested lifelong student of socio-economic trends and the collective dynamics of our neighboring communities. There is no doubt in my experience that Fallbrook should be grouped in district with other North County communities, particularly those in the coastal belt.

The dynamics, challenges, and camaraderie of the communities in North County is undeniably solid.

We appreciate your consideration in preserving our identity as such. Thank you.
