Thank you for listening to my concerns.

I 'm Bob Stoody the current board President of the Ramona Unified School District and completing my 19th year on the School Board. I am a member of CUDA committee under the Ramona Planning Group and a The Ramona Village Design committee member serving under the Board of Supervisors. I grew up in Lakeside.

I do not see a map that has maintains the grouping of Ramona, Lakeside, and Alpine . I support an outcome that will yield the minimal destruction of the current district 2.

Though we value the coastal communities we do not share many of the same challenges.

If we are disenfranchised from each other our ability to be heard will be diluted truly creating a scenario of taxation without representation.

These unincorporated communities of interest share a population type that commutes in a different fashion than other communities therefore views and values roads differently than other communities, including having limited mass transportation. We share a similar fire exposure. We share equestrian and agriculture commonality.

Additionally there is a world of different in the dynamic of the need of mental health and even the homeless needs are of different demographic in the more urban communities.

Please do not dilute the voice Ramona Lakeside and Alpine by breaking us into different districts Bob Stoody
