---

To the Redistricting Committee,  
Please do not redistrict our county and leave the voting rights to the voters. I do not believe that the District 2 (my district) share the same community concerns or needs that the other metro areas of San Diego county do. We have unique needs and desires that these residents should be able to vote on in regards to those candidates that choose to run in that district.  
Thank you for your consideration on this matter.
