Map 6, in my opinion is best option.

North County, that is our regional identity. We identify differently than coastal communities or the city of San Diego. we need to keep all of our I15 corridor and inland north counties together; Escondido, Fallbrook, Valley Center, Bonsall, San Marcos, Vista, Temecula and be represented by ONE supervisor which is JIM DESMOND. We are the I-15 corridor and we have different concerns, needs, interests than coastal communities. We share common north county institutions like sports leagues, transportation, health care entities, and community services. We encompass tribal lands of Rincon, Pauma, and Pala tribes.
