As I look at the proposed maps, I am distressed to see La Mesa grouped in with downtown and southern communities.

La Mesa is much more like Santee, El Cajon, Lakeside, Poway and Alpine. My tax bill says I live in a semi-rural zone. Our values are much more aligned with the aforementioned eastern communities.

I am advocating to include La Mesa in the east county districting zones. We are not Lemon Grove, we are not National City, we are not La Prensa, we are not South Park.

Please consider La Mesa as part of the east county community so we may have appropriate representation.

Thank you for your attention to this matter~
