Dear Commissioners,

I have looked at the maps and Map 9 or Map 11 look less gerrymandered than the other 3 maps and keep backcountry areas from being ruled by large cities that have been included in proposed re-districting Maps 10, 12A and 12b. Keep big cities with big cities and small towns with unincorporated parts of the county together because in each case their respective interests are more likely to be aligned with each other.

Respectfully submitted
