To the San Diego County Redistricting Commission:

As lines for County Board of Supervisor election districts are considered in light of the census, the process, and the resulting districts, need to be fair. The process and the resulting districts should not favor any special interest group or political party.

Neighborhoods that have the same interests and concerns should be grouped together in one district.

I urge you to support the [San Diego County Communities of Interest Redistricting Map](#).

I strongly support the maps outlined at the following website:

[sdcountyredistrictingmap.org/supervisors](https://sdcountyredistrictingmap.org/supervisors)

Thank you for your kind attention.

Diana Powell
