Redistricting commission: The current draft maps do not represent a logical allocation of the districts. I strongly support the maps at this website: [sdcountyredistrictingmap.org/supervisors](https://sdcountyredistrictingmap.org/supervisors) .

Some of the districts in the draft are not really contiguous or compact as is required. As a long time voter and concerned citizen, I implore you to start over and establish districts that are more logical and objective.

Karen Boyle
