Dear Commissioner:

I live in Rainbow and I am horrified at the notion of being redistricted to district 2.

My "community of interest" is north county. - Fallbrook, Oceanside, San Marcos, Vista, Bonsall, Escondido, Rainbow, Valley Center, and the local tribal lands.

- Our communities share so many similarities and resources from overlapping agencies like health districts, fire districts, law enforcement, water districts, school districts, and especially transportation services.
- Our communities share essential services like public safety services like fire and police services. Why should the people who keep us safe have to work harder because of a supervisor district line?
- We deserve to have a single advocate for our communities that understands all of those connections between these specific communities.

- Our communities are not comparable to places like the city of San Diego, east county, or south county. We are coastal, rural, and urban with shared common goals that unite us.
- Keep the north county communities along the 76 and 78 corridors together!

Sincerely,

Kathy McSorley
