Dear Commissioners,

I strongly you not to proceed with any redistricting of District 5.

Rancho Santa Fe and the unincorporated areas of North San Diego County currently in District 5 share much in common such as fire, safety, traffic, development, and other issues. Separating any of the existing communities in District 5 runs counter to these shared values at a time when many of us have few reasons left for remaining in California. Another ill conceived political move risks sending more of the tax base elsewhere for our primary residences.

Sincerely,

Peter Tomei
