To whom it may concern -

As a 29-year resident of the Park Village area of Rancho Penasquitos (south of 56), I strongly believe that our community should be reunited with the rest of Rancho Penasquitos (District 5) as part of the drawing of the district maps. Park Village is much more closely aligned with the northern communities, rather than Mira Mesa to our south. The Penasquitos Preserve is a natural separation between the two communities and should also serve as a boundary as part of the development of the district map. The recently published "Collaboration Map" would appear to serve this purpose.

Thank you,

Tom White
