East county is a rural community and has no commonality with cities along the coastline. Our uniqueness is our open land and long backroads throughout the east county.

Northeast San Diego county is the same. It allows homes to be built on large acreage of land with the ability to own livestock and have children grow up in an open land area while sharing responsibilities of animals and freedoms the land has to offer. Please keep our Northeast and Southeast district together.

It is feared that a new county supervisor may spend all their funds on the cities, leaving the rural area out. Our needs and problems are very unique for roadworks, lighting, water, etc. The many citizens in the east county area allow everyone to expand and find their own potential for new businesses which are always welcomed in our community.
