I currently live in Lakeside and see my community not only as Lakeside, but all the way through Ramona, Santee, Alpine and beyond. I want a district that prioritizes East County needs vice one that combines East County with communities all the way to the coast. West-East districts will unfairly penalize the East County communities because the population densities are so lopsided in favor of the Western communities. Furthermore, there is such a wide range of socio-economical, political, ethnic, sexual preference and every other talking/data point that the census data can give, between East County and the communities to the west that it would be impossible to fairly govern as a District Supervisor. I will be waiting to see the next map, because Map 8 is nonsensical. Thank you for your consideration of our inputs.
