I have lived in Fallbrook for over 50 years. It has grown and changed but throughout my years, it has always been part of the same district as other No. County cities such as Oceanside and Vista and Carlsbad. It needs to stay grouped with them as we share many of the same economic growth, geographic similarities, and history with them and benefit from their proximity. Why would anyone think we could be part of a district with far away cities in the east county? We have been supported strongly by the supervisors of our district and Jim Desmond has been wonderful for this community. we need to be part of No. County to the ocean, not to the East!
