I have lived in the Fallbrook/Bonsall/Vista area since 1992. Always within the unincorporated parts of the county. We moved from Long Beach in 1992. The needs and issues of the current district 5, all inter-relate. We all have substantial agricultural resources, that depend on someone who understands our common need for water to sustain the economic stability. We all share a common concern over wildfires, that have, because of how N. County Fire works with the local jurisdictions, been able to prevent a serious fire with substantial destruction since 2007. Our school systems cross over as well, with children in Oceanside attending Bonsall schools, and children in Fallbrook attending Vista schools. Even the homeless, hop from Oceanside and Vista into Fallbrook/Bonsall, and Valley Center. Our health care resources are shared across community lines. We have worked together for the common good of the region. Our voice as a community will be silenced if we are grouped in with larger areas like Poway, Rancho Bernardo or Carlsbad. Those larger population areas will be in total control of who even becomes our elected representative. For as long as I can remember, the District has functioned well, with representation that understands the needs that we have. The only reason to change it now, is for political gain, not because it is broken. If you don't understand what I'm saying, it is because you've never spent time up here. We are unique. We are special. And we need to be preserved.
