eComment :

My name is Danny Jack O'Brien and I have lived in Santee since 1978 and helped Santee become a incorporated city in 1980. I served as a Director on the Santee Chamber of Commerce Board of Directors for 24 years and still serve on the Government Affairs Committee and I am a licensed business on we located in Santee. During my time in Santee I have seen tremendous growth and good planning in Santee and also how well our districting for our State Senate, Assembly and County Supervisors to promote and support the interests of Santee citizens and businesses. Santee is a integral part of San Diego County's East County located next to Gillespie Field, Highway 52 and 125 and any change that moves Santee away from our natural alliances will be harmful to our community. I urge you to leave our current districts which have served us so well drawn as they currently are should continue to be for the best interests of all of San Diego County. Thank you, Danny J. O'Brien
