Thank you for your work on redistricting.

As a Valley Center resident, I hope that rural unincorporated areas like Valley Center will be part of a district that includes other rural townships.

Residents of Valley Center are interested in preserving the character of our township and in protecting the livelihood that we have here as ranchers of large- and small-scale farms and as people who enjoy living in the country.

We have needs and desires for wildfire prevention, small town hospitality, and for continued development, and we hope that redistricting will help us to meet these needs without being at loggerheads with the needs and desires of residents in more urban areas.

Thank you for your time.
Elisabeth Kramp
