eComment :

As a life long resident of San Diego County and mostly in District Four in the Southeastern section, I am imploring you to map this County in which bring equity throughout the County. I have seen again and again other districts flourish and have seen the Southeastern section be overlooked again and again. As a concerned Community Member, a Union Member, an Employee of the County of San Diego and last but not least a Child of God, I am praying that these Maps will be equitable to all those living throughout the County and also give those overlooked again and again a much needed way to those are left behind to flourish like other districts and give them a stronger voice in the decisions of their Districts.
