To whom it may concern,

The firefighters of Local 1622 directly serve the people of Fallbrook, Bonsall and Rainbow and work regionally with other North County fire agencies in what is established as the North Zone Operational Area. This is a geographically connected network of fire agencies in Northern San Diego County. Our firefighters work together to provide the highest level of service and support to our communities in Northern San Diego County. Keeping our communities intact as part of the North Zone Operational Area will directly support and ensure that regional grants, community risk reduction, and interests benefiting our communities remain united and supported at the County Supervisor level. We support the current map as well as maps 11 and 12A.

Regards,

Joe Harlin
