I strongly support the maps outlined at the website: sdcountyredistrictingmap.org/supervisors. I wholeheartedly support these maps as they have balanced population, ethnicity, and community interests. In short- they keep communities together! I have lived in the community of Lakeside for 31 years. I live here because I appreciate the rural environment and the focus on agriculture. When looking at these maps, specifically at District 4, this map keeps many of the East County sister communities together such as Lakeside, Alpine, Jamul, Santee, Poway, El Cajon, and Ramona. We share safety, economic, social, and cultural interests enhanced by our rich Kumeyaay heritage. Additionally, the unincorporated rural communities within this area work in unison with Community Planning Groups, Law Enforcement, and Fire to ensure safety. K-8 schools in these areas feed into Grossmont Union High School District and we have supported GUHSD through school bonds and encouraged workforce development through industries and educational institutions. Our combined educational, recreational, agricultural, and industrial interests power our economies to enhance families lives through work and recreation. Again, I am in support of maps at sdcountyredistrictingmap.org/supervisors. Thank you!
