My name is Bob Krysak and I am a member of the Ramona Chamber of Commerce. I have lived in Ramona for 30 years. We are a community with Shared interests, shared needs and a shared culture. We are a united community which collectively addresses our towns needs, which are rural and dramatically different from our urban centers. We need to remain whole.

Similarly, the back country of San Diego county has unique and similar needs. We need a strong singular voice for a rural communities, and we should not be reduced to fighting amongst ourselves across supervisor districts.

I strongly support keeping the community of them on intact and joined with our sister rural communities so that we will San Diego has a strong unify voice. I strongly support the map which is located in San Diego County redistricting map.org/supervisors or map 10 and 11 as they tend to return the integrity of all San Diego.
