Good Afternoon,

The City of Santee received the below comments related to the County's redistricting and is forwarding it for your consideration.

Thank you,  
James

**Subject:** Draft maps for redistricting

I've had a rough time deciding where boundaries should be. Draft maps 4 lowers our deviation to 5.7% and map 10 4.5%. Looking at both maps the shape of draft map 4 appears to be the most contiguous. This feels like a very tough process to me. I don't envy the ultimate decision makers.

In future meetings I would like to explore who the citizens of Santee can be more compliant with the goal of reducing solid waste.

Thank you for your time reading and forwarding my sentiments.

Sincerely,

Renee J Woodward
