Dear Commissioners,

Map 10 is very close to the ideal for the East County (aka District 2) because it includes El Cajon. **Map 14** is also a good choice but it doesn't include the Jamul and south part of the map. It should include those. If possible, Camp Pendleton and Poway can be shuffled over to other districts as necessary for population balance.

I want to keep East County in District 2 as well. It is not fair that after electing Anderson, we are shifted over to another County supervisor who knows nothing about us. The county supervisor is our best local representation as a rural community, since many of us are not in a city with a mayor or council member.
