Hi,

I live in Point Loma and I just want to say that Point Loma belongs in a Coastal District.

I see my communities of interest stretching from Encinitas to Coronado. We have literally NOTHING in common with the East County cities like La Mesa and El Cajon.

We have the most in common with Encinitas, Del Mar, Solana Beach, La Jolla, Pacific Beach, and Mission Beach as these are other very similar coastal communities.

We are the heart of old San Diego, and we rely on the ocean for our recreation, our jobs, our property values, and more.

I want to be able to vote for a Supervisor who will champion our coastal interests.

Please protect Point Loma in a Coastal District. Thank you.
