When reviewing the proposed maps, I would like to strongly encourage the County to choose Map 13b which keeps the communities of Harmony Grove, Elfin Forest, and Eden Valley together in the same district. These 3 communities share common needs that would best be served by being represented by the same Supervisor. The most important is we share the same fire risk and all have to evacuate on the same few roads hence the need to be represented by one Supervisor who understands our needs. We also have a Town Council that represents Harmony Grove and Elfin Forest and Eden Valley has a Town Council and very often these two Town Councils work together to plan events that include all the residents. Please consider keeping these 3 communities together which have a long history of working as a single entity.
