I am the chair of the Elfin Forest / Harmony Grove Town Council and I represent members of these communities in the unincorporated County. The communities wish is to remain together and not be divided into two districts. We would ask that the unincorporated communities in the San Dieguito Planning Area that stretch from northernmost Eden Valley (at Escondido boundary near Auto Park Way at Country Club Road) though Harmony Grove and all the way through Elfin Forest be kept together. We are a community of interest: one rural community in the unincorporated county that socializes, advocates and collaborate together regularly. Our Town Council boundaries include both Harmony Grove and Elfin Forest. And Eden Valley is the last piece of rural valley before Escondido. We would strenuously object to any map that divides our community into multiple districts. Thanks and feel free to reach out via email if you wish to discuss further.
