I have reviewed your final two maps #10 and 11 and agree in most part with # 11 however, I disagree with Carlsbad being placed in District 5 instead of Escondido. Escondido has far more in common than Carlsbad with the rest of District 5. I base my opinion on having served for over 20 years as an elected member of the Fallbrook Community Planning Group. Escondido is a destination for many people in north county ie. shopping etc. Our ethnic population is nearly the same which is not true of Carlsbad. I urge you to make that change on the map.

Jack Wood, retired chair of the Fallbrook Community Planning Group
