Hi, and thank you for your work. As a veteran, I am very interested in all of the redistricting work going on in the county. I encourage the commission to consider keeping military communities as whole as possible. In addition, I also support keeping minority communities intact where possible. From what I have seen, Map 14 appears to best represent these differing community voices by maximizing AAPI voting power in the coastal district. So, it keeps Mira Mesa, Rancho Penasquitos, Carmel Valley, Miramar, Linda Vista, Kearny Mesa together and keeps the urban areas along the 78 together, which is good. It also keeps the proposed PANA district, keeping the core of the Black/Muslim community of interest together & keeps the LGBTQ communities together while creating a majority minority district which reflects the demography and cultural diversity of San Diego's central region. Thank you for your inclusion of my voice in this matter.
