eComment :

Hi there - my name is Katie Quartuccio and I am a 4th generation San Diegian, specially to the East County. My great grandparents came to Lakeside from Michigan in the early 60's and established themselves as small business owners, community volunteers, etc. My grandparents, aunts and uncles, parents, and cousins all have lived in the Rancho San Diego/La Mesa/Jamul area since and we can attest that the needs and wants of this area are better served having a district that understand our specific unincorporated area that is drastically different than that of the northern areas such as Fallbrook, etc. Having to compete with a supervisor's attention with other areas that are less populated me have different needs would put a division to our unincorporated areas and San Diego overall. Being in more rural, suburban areas we already feel a bit overlooked to San Diego county in general. I fully support Map Draft 13a versions 1-6 as the best option foe the county overall!

Thank you!
