eComment :
To the Honorable Commissioners,

My name is Lisbette, I am a resident of the city of Vista and a small business owner. I have grown up in North County and have seen these communities expand along with the many institutions in our region. All along the 78 corridor, we can see the growth and impact of Latinos in our region. From our schools, to small business and churches, my community is interconnected with the beauty that we call north county. As you consider the final maps in this process, I urge you to keep our North County cities together. As a starting point I recommend using map 13v 1-6 and make adjustments as needed. We can do better than the current lines, please ensure Latinos have fair representation in North County.

Please remember our feedback as you make a final decision. Thank you for your time.
