Thank you for welcoming our comments. I assume that they will be considered in a fair, nonpartisan and equitable manner --- rather than tainting the process with political manipulations on behalf of one political party or another.

I strongly support an effort to continue to redefine Draft Map 14! Of all the alternatives, I believe that Map 14 does the best job of connecting communities in our County that share the same issues and interests overall.

I oppose Draft map 13 because it disenfranchises voters in the central district and is in direct conflict with the IRC's mission and stated goals. EVERY community of interest needs a meaningful "seat at the table" and deserves their voice to be not only HEARD but also CONSIDERED CAREFULLY on equal ground with other positions.

Thank you for your service,

Marilee McLean
