I am writing to voice my support for continuing to refine Map 14. Map 14 is the best available option to represent different community voices, including maximizing AAPI representation, keeping the cities along the 78 corridor together, ensuring a majority Latinx district in South County, and uniting as many rural communities together as possible in an East County district.

Conversely, the Map 13 variations disenfranchise voters in the central district. The AAPI communities of Mira Mesa, Kearny Mesa, Penasquitos, Miramar, Carmel Valley, and Linda Vista must be kept together.
