My name is Nazzar Hummana, and I live in Elcajon. The new proposed map is taking Elcajon from East county and adding it to San Digo county, but there is no any geographical, ethical,social, or religious reason to do that. As you know most of the Chaldean community are concentarted at Elcajon, Rancho San Diego, and spring valley, so why sperating and dividing East county into parts that will harm and destroy the Chaldean community. Please keep Elcajon with other Chaldean communities in Ranch and spring valeey and let them practice their religious, cultural values, and keep their culture and tradition, unless you want to kill their religion and culture.
