My name is Safaa Poliza and I work and live in Elcajon. I am Chaldean and refuge from Iraq. We came to the United State a country of freedom and dream, but it seems it's not like that becuase you are trying to seperate the Chaldean community and tearing it into parts to slatter them and kill their dreams in freedom. Please keep Elcajon with other neighbor Chaldean communities such as Rancho and spring valley and give them chance to survive and thrive to be an active and productive people in the community.
