Hello I am speaking on behalf of my entire family. I went to high school in Rancho San Diego and I work in the city of El Cajon. My church is in Rancho San Diego and all of my relatives live in El Cajon. The new redistricting maps show that the city of El Cajon will be removed from East County. This will completely split our community and our shared beliefs. Please keep El Cajon inside of East County. They voting right act protects community of interest such as ours so please keep El Cajon inside where it belongs.
