My name is Steven Zouri, and I live in Elcajon. I am chaldean from Iraq, and I loved my new country America, and I want to enjoy its freedom and human rights laws. I hearded that you are rtrying to seperate Elcajon from other Chaldean communities such as Rancho and spring valley, or hamool. If your doing that you are trying to kill and vanish this Chaldean community becuase you are trying to kill this body by sperating it into parts, and this is very rude because Chaldean have their Churches, organizations, cultuer that unite them, and your seperating the head from the body as you are doing to other parts of this community, so please keep El cajon with its neighbors such as Rancho and spring valley to live and survive.
