My name is Stever Phillip. I am student at SDSU, and I live in Elcajon. Dear commission, thank you for your hard work and commitments, but I want to clarify couple of things that you might not know. First most of the Chaldeans suffered regious persecution and came to America, country of freedom to feel fee in practcing their religion and to keep their cultur and values, but by your action of seperating Elcajon from other Chaldean communities in Ranch Sandiego and spring valley you are are killing this dream of freedom because their church is in Rancho and their bBishoppe is in Rancho and all other chruches are in the East county area, so why you are doing that. Please let Chaldean enjoy the American dreem and freedom and keep elcajon with other Chaldean neighborhood together in East county.
