I support all versions of map 14, map 13a 1-6, and map 13a 2-4.

Mira Mesa and Rancho Penasquitos have coastal urban challenges. We clearly belong with UCSD, La Jolla and Sorrento Valley in a coastal district.

Map 13a 2-4 is the best because it responds to all the feedback received so far.

Maps 13a1, 13a5, and 13a6 are just wrong and out of touch with our community.
