“FLO to respect Community Planning Areas where possible” says Map 14. But the Spring Valley Community Planning area gets split between two districts in this map. The community of La Presa is the prize because of its racial makeup and thus would go to South Bay to strengthen the racial voting blocs there. The Spring Valley Community Planning Group is very supportive of BOTH its census tracts, but will the Board of Supervisors keep these two census tracts together under one community planning area? Only time will tell.
