I want to thank the commissioners for your work to date. I am pleased by the progression of the maps that recognize East County as a COI that should be kept intact as much as possible. Draft Map 13a along with the public maps that keep East County together best reflect these changes.

I believe it would be beneficial to consider moving the city of El Cajon and the unincorporated community of Rancho San Diego into the East County District. Please consider the public comments that request this change and consider balancing population shifts from this change by moving the communities of Tierra Santa and San Carlos to the central district and Rancho Penasquitos and Mira Mesa to the coastal district.

Much of the government agencies that span East County are located in El Cajon and it would be detrimental to move El Cajon into a different district than the rest of East County. Please keep efficient and effective governance at the forefront of your decision making.

Thank you,

Travis Lyon, Chair
Alpine Community Planning Group
