eComment :

Hello

Please don't divide El Cajon into different districts. Keep El Cajon together with Rancho San Diego and all the surrounding vicinity like La mesa, Santee , spring valley lakeside Jamul all in a east county district. We have our families, relatives friends , church work , school and much more in east county San Diego . We live in This area for more than 40 years and some 50 years and more ! Keep El Cajon - don't break our Chaldean community in east county. Please listen to the people who are pleasing their case,. It's not in our favour to re district and ultimately not in your favour either .

I wish I had the guts to call in but I chickened out. I couldn't even talk to my phone. I wish I did. We did a very bad job explaining what we're fighting for. It's not for Land it's not for Power and it's not for money. Were fighting for our existence. Today only 50,000 of us are left that speak this ancient language. Aramaic, the same language that Jesus Christ spoke, and That's worth fighting for. Just imagine being forced to leave your land and you were there from the beginning of time. We went from ruling the land to being kicked off of it. Imagine when applying for asylum and asked where do you have family. Our options were Detroit or El Cajon, and that's all we knew. We didn't choose Elcajon or East County it was chosen for us. That's were our people were. The new generation will go up as Americans and that's green but we have to help them remember Our rich history, and definitely our ancient language. I have to admit as a parents im not doing the best job teaching my kids Our language. They know more English and Spanish than they do Aramaic. Lol. We're fighting for something much bigger than us because if we don't we would all be forgotten. Thank you P.s hate to be in your shoes lol

I grew up, live and have a small business in Fallbrook. We are North County and have worked so hard to better our resources and connection available to us being unincorporated. Moving us would be extremely detrimental on so many levels. Please leave District 5 untouched as you move a map forward. Keep our unincorporated areas like Fallbrook, Rainbow, Bonsall, and Valley Center united with our nearby tribal lands, as well as the 78 Corridor cities of Oceanside, Vista, San Marcos, and Escondido. Thank you and please keep North County together as is. FALLBROOK IS NORTH COUNTY.

eComment :

Dear commissioners: It is unclear why Rancho San Diego was not kept in East County when Rancho San Diego and El Cajon are known as being two halves of our Chaldean community. We are trying to preserve our minority voice and deserve equality as does every other minority group. Please reconsider and put Rancho San Diego back in East County where it belongs with sincere folks who are trying to do the best for their families.

eComment :

As Chaldean American citizens in the amazing community of the East County we are 70000 Chaldean American and we strongly stand against of the division of our community and we have no interest of becoming a part of the Hillcrest and North Park Community as we share not the same values with them! By this decision you are making us silent and taking our rights away! Do not divide us!

eComment :

I am a Chaldean living in Rancho San Diego over 20 years as many as Chaldean does, I urge you to keep Rancho San Diego in east county as well, we are community of interest and share same language, beliefs, culture and traditions, it's not right to divide us.
