Please adopt map 13A as this will officially include Escondido as part of North County. Like our neighboring cities of Vista, San Marcos, Fallbrook, Valley Center etc. (not Carlsbad) our communities of interest includes in large part Latinx/BIPOC working class folks whose interests and needs align much more closely together than with those of Encinitas, Solana Beach, and other coastal cities. Please support and ensure that our community's voice is heard so that future policies and representatives better serve our people. Once again please adopt map 13 A. Thank you.
