This is a comment in support of map 14, the "Communities Together Coalition" map. I am a Carlsbad resident. Please support map 14, as it keeps communities together and will make San Diego County stronger. Keeping the urban areas along the 78 corridor together is best, since these areas have similar issues & concerns at the County level. It respects the Tri-City hospital districts/region and keeps it together. I also recognizes the different needs of incorporated cities and unincorporated communities. It recognizes the strong veterans' presence along the 78 cities corridor. The other map versions just don't work. They cause chaos in other parts of the County and tear apart communities of interest, along with warping the coastal district. Map 13a divides the voices of coastal north county communities. Draft map 14 has the support of representatives from diverse communities who have come together to try to find agreement. This map will serve all of our communities of interest. Draft map 14 is a map that we can all accept together because it will keep all of our communities together.  
Thank you for all your hard work on this very important process.
