Dear Members of the San Diego County Independent Redistricting Commission:

My name is Erica Pinto and I am chairwoman of the Jamul Indian Village.

As the original community of interest in this County, we believe MAP 13 Versions 1 through 6 best reflect the Kumeyaay tribal community's needs. We have made prior comments consistent with the desire to have the Kumeyaay Tribes, including the Jamul Indian Village, included in one district along with other unincorporated communities. The versions of Map 13 provided for public review accomplish this goal.

Map 14 does not and should be rejected.

In fact, Map 14 isolates our tribal community and places it with other non-consistent urban communities with no connection or relationship with our reservation, our tribe or our way of life.

We understand there are other objectives, including other communities of interest whose needs are being considered. We believe the versions of Map 13 also accomplish these goals, including the desires of the LatinX community.

We also believe the versions of Map 13 minimizes disruption to other communities, including ours.

We appreciate the complexity of this effort, as well as your time and service to our community. We are hopeful that tonight and tomorrow you are able to move forward with one of the versions of MAP 13 and provide some comfort and certainty to our Kumeyaay tribal community.

Thank you for your consideration.
