As a 7 year resident of Eden Valley, My husband and I specifically chose this part of the county after relocating from San Diego because of the rural feel and the connection to Elfin Forest and the rural parts of this area. We consider ourselves and neighbors as part of a united rural community. This area is special and rare in Southern California acting as a rural community that is united in our values of conservation, independence, large animal keeping and maintaining the rural environment. From Elfin Forest to Harmony Grove to Eden Valley, we socialize together, fight battles together and help each other out in a time of need. We're represented by one Town Council and one Planning Group.

I strongly oppose our community being split apart at the suggestion of folks who have no connection to our community. I also strongly oppose being lumped into an east county district. We have no association with east county. We have been associated with the city of San Marcos, Escondido, Olivenhain and Rancho Santa Fe for decades and our links are longstanding. We feel we should be considered part of the coastal district or as an alternative, north county district. We should NOT be considered East County.

Thank you for considering our voice!
