I am a longtime resident of Harmony Grove. I live in a united rural community that stretches from San Marcos to Escondido. We work to preserve our rural community. We have common values of conservation, independence, large animal keeping and maintaining a rural environment. From Elfin Forest to Harmony Grove to Eden Valley, we are a community of people who connect with each other. We're represented by a single Town Council and one Planning Group. We've fought fires together for decades, manned our own volunteer fire station and have advocated for preserving this small community. I strongly oppose our community being split into different districts and connected with other districts who do not share our common historical values! We live here and we should decide who represents us. It was my church, formed 132 years ago that gave Harmony Grove it's name. We have no connection with east county. We have been associated with the city of San Marcos, Escondido, Olivenhain and Rancho Santa Fe for decades and our connections are longstanding. Being in a coastal district or a north county district, it is better than being placed in East County.
