Please assure that our small, geographically-compact city of SOLANA BEACH (13,000) remains UNDIVIDED on the final district map, in keeping with your criteria to “Minimize division of cities...neighborhoods, and communities of interest.”

Solana Beach is a tightly-woven social, cultural, and political unit. Both our east and west sides strongly request that our city not be severed in half.

Please choose map 14. Or please change map 13a 1-6 to include the whole city of Solana Beach, which, because of the small numbers involved, can be done w/o making any other changes.

Thank you for your time and care in drafting a map that truly reflects the communities in which we live.
